PROJECT “GAMING IN ACTION” **Engaging Adult Learners with Games and Gamification**

Project No. 2018-1-TR01-KA204-059315

The pandemic affected many social activities and changed the development plans of many actions. There was also a change in the expiration date of the European Program "Gaming in Action" which was postponed by six months to the end of June 2021.

The result of the pandemic and the postponement of the end of the Program is the setting of new dates for the Final Events as well as the way in which they will take place.

We at DIAN decided to organize at least 2 Online Events for the final presentation of the "Gaming in Action" Program. In addition to the Outcomes of the Program, Scientific Articles about the Program will be presented during the Event.

After the end of the presentations, an exchange of views between the participants will continue.

The dates of the Internet Events will be announced in the coming weeks and you will be informed by an announcement on the DIAN website and by e-mails that we will send you along with the invitation and Agenda. For the best organization we will give the opportunity to each Event to take part up to 30 participants taking into account the order of participation.

On the “Gaming in Action” web site
